## Work Experience

---

### Software Developer Intern

Zodiac Group - Toronto, ON

June 2022 to December 2022

- Technologies: Wordpress, PHP, MySQL, Javascript, CSS, HTML, CMS, figma, Elementor
- Designed UI template using figma
- Worked on backend using PHP and MySQL
- Used CSS to give animation effect and additional designs
- Designed frontend using Elementor and used javascript to give events to buttons and forms.

### Go-Social

Project - Toronto, ON

- Go-Social is a social networking website designed using MERN stack.
- Used Socket to create real time chat system inside the website.
- Used NodeJS for backend and context API for app state management.
- Github link (frontend) : <https://github.com/Sanyam632000/Go-Social-Frontend>
- Github (backend) : <https://github.com/Sanyam632000/Go-Social-Backend>
- Github (Socket) : <https://github.com/Sanyam632000/Go-Social-Socket>

### E-Commerce Site

Project

- Technologies Used: React, NodeJS, ExpressJS, CSS, TailwindCSS, MongoDB, Typescript, Postman, Axios, Render
- Designed E-commerce site (shoes as products) using MERN stack with features including login, create account, view all product listing, single product page where logged in user can post a review, user can add product from single product page and cart gets updated concurrently when user add products.
- Deployed frontend and backend on render
- Github (frontend): <https://github.com/Sanyam632000/shoescom-frontend>
- Github (Backend): <https://github.com/Sanyam632000/shoescom-backend>

### FindMate

Project

- Technologies: React, NodeJS, ExpressJS, CSS, MongoDB, Typescript, Postman, Axios
- Created this website to participate in hackathon.
- Created website by merging idea of several websites(kijiji; where you can sell and buy items like books, facebook; where students of university can connect with other students and has great filter where you can find students of same course or same subjects) and website primarily for the university or college students.

- Almost has all the feature which a website has (create account, login).
- Github Link: <https://github.com/Sanyam632000/Hackathon-FindMate>

## Education

---

### **Bsc. Hons. in Computer Science**

York University - Toronto, ON
